Ms. MaryAnn Diaz, Esq.
Senior Associate Attorney
Gary, Williams, Finney, Lewis, Watson and Sperando, P.L.

Dear Mary,

At your request, attached is a copy of the information that we compiled at the request of Michael Sussman, Esq. for the case Merton D. Simpson et al. v. New York State Department of Civil Service and George Sinnott, Case Number 04-CV-1182.

We were engaged by Mr. Sussman to assist in the summarization of data that was provided to him relative to this case. We are not in the business of expert testimony, and accordingly do not have experience that can be reported in my CV. We did not render any opinions on the data compiled, but rather we performed data analysis and reporting of data provided to us by Mr. Sussman. We have substantial experience in the development of reports from data sources, both forensically and when provided with detail data dictionaries. We have not published any articles on our experience, however we have taught classes on database report writing and using forensic methods to understand data structures and compile reports.

For this case we have been billing at an hourly rate of \$175 per hour.

Feel free to contact me with any questions you may have.

Sincerely,

ACCOUNTING LINK TECHNOLOGIES, LLC.
Michael Haines
Partner

Memorandum

To: Mary Ann Diaz
From: Michael Haines
Date: January 29, 2008
Re: Merton D. Simpson et al. v. New York State Department of Civil Service and George Sinnott, Case Number 04-CV-1182

I received several data files from the office of Michael Sussman that had been obtained from New York State:

1. Exhibit (Disk labeled) A: No accompanying documentation is included to identify the contents of this disk. The following are my observations regarding the data:
 - a. File entitled 1214.txt. Delimited file containing 5,275 records (including approximately 295 duplicates). No data present to determine the time period covered by this file. I attempted to compare a sample of these records to the original candidate file and found that some records included in this file were not in the candidate file, and some members of the candidate file were not in this file.
 - i. Exam number
 - ii. Employee ID
 - iii. Last Name
 - iv. First Name
 - v. Ethnic Code (values 0-4, U and null. 212 records have a null value)
 - vi. Final Score
 - vii. List Appointment
 - viii. Appointment Date
 - ix. VA? (values 3-9, blank and null)
 - b. File entitled "All Battery Records.txt" Containing 195,030 records spanning from 9/7/1996 to 6/3/2006
 - i. ID
 - ii. Exam Number
 - iii. Series date
 - iv. SSN
 - v. Last Name
 - vi. First Name
 - vii. Ethnic Code
 - viii. Final Score

- c. File entitled "Drop Down Only.txt" Containing 9,461 records dating from 2000 to 2006
 - i. Exam Number
 - ii. Employee Id
 - iii. Last Name
 - iv. First Name
 - v. Ethnic Code
 - vi. Final Score
 - vii. List appointment (yes/no)
 - viii. Appointment date
 - ix. VA (1 digit code ranging from 3-9)
 - x. SR_CRED (4 digit code, values 00,0000 and 0100-0900 by hundreds)
 - xi. Department
 - xii. PU (2 digit code range from 00-96)
- d. File entitled "OC held on battery date.txt" containing 4,384 records spanning from 9/7/1996 to 6/4/2005
 - i. Exam number
 - ii. Series date
 - iii. Employee ID
 - iv. Last Name
 - v. First Name
 - vi. Ethnic Code
 - vii. Final Score
 - viii. List Appointment (Y/N)
 - ix. Appointment Date
 - x. VA

2. Exhibit (disk labeled) B:

- a. Spreadsheet entitled "Action Reason.xls" containing a list of "Transaction Codes" used from July 1998 in items d and f below.
 - i. Action Reason
 - ii. Short Description
 - iii. Long Description
- b. Word Document entitled "Documentation.rtf" which appears to outline the contents of Exhibit (disk) B.
- c. File entitled "Emplid_ethnic.txt" containing 39,587 records
 - i. Employee ID
 - ii. Ethnic Code

- d. File entitled "Prombat_emphist.txt" containing 443,056 records said to be employment history for all promotion battery candidates 4/1/91 to present
 - i. Employee ID
 - ii. Position Number
 - iii. Employee Status (key listed in item b.)
 - iv. Effective Date
 - v. Job Code
 - vi. NY_JURIS_CLASS_CD (jurisdictional classification, key listed in item b.)
 - vii. Grade (salary grade)
 - viii. Reg_temp (blank, C,P,T,V-appointment type, key listed in item b.)
 - ix. Action_Reason (transaction code per item a.)
 - x. Full_Part_Time
 - xi. NY_EE_PCT_FILL (percentage worked)
 - xii. Department ID (agency code)
 - xiii. Name
 - xiv. Department Description
 - xv. Title Description
 - xvi. NY_EXAM_LIST_NBR (list appointed from)
- e. File entitled "Prombat_examhist.txt" containing 564,946 records (Said to be exam histories from 9/1/1996 to date for all promotion battery candidates)
 - i. SSN
 - ii. LASTNAME
 - iii. FIRSTNAME
 - iv. EXAMNUMBER
 - v. SERIES_DATE
 - vi. SHORT_TITLE (examination title)
 - vii. QS_1 (promotion review code, items defined in item b.)
 - viii. QS_2 (staffing review code, items defined in item b.)
 - ix. FINAL_SCORE
- f. File entitled "Prombat_jobcodes.txt" containing 25,175 records (Said to be appointment history for all titles filled by promotion battery based exams from 1/1/1997 to present)
 - i. EMPLID (social security number)
 - ii. POSITION_NBR (position number)
 - iii. EMPL_STATUS (employee status)
 - iv. EFFDT (effective date)
 - v. JOBCODE (title code/jobcode)
 - vi. NY_JURIS_CLASS_CD (jurisdictional classification)
 - vii. GRADE (salary grade)
 - viii. REG_TEMP (appointment type)
 - ix. ACTION_REASON (transaction code from item a.)
 - x. FULL_PART_TIME
 - xi. NY_EE_PCT_FILL (percentage worked)
 - xii. DEPTID (agency code)
 - xiii. NAME (of employee)
 - xiv. DPT_DESCR (agency name)
 - xv. TITLE_DESCR (title name)
 - xvi. ETHNIC_CODE (from item b.)

- xvii. NY_EXAM_LIST_NBR (list appointed from)
- g. Word document entitled "Transcds.rtf" contains transaction codes for pre-July 1998 transactions

Exhibit (disk labeled) C:

- h. Files entitled "dept_sg_eth_gen_1995.pdf" through "dept_sg_eth_gen_2006.pdf" inclusive, 12 adobe acrobat files entitled NEW YORK STATE DEPARTMENT OF CIVIL SERVICE BOOK E - AGENCY WORK FORCE ANALYSIS BY SALARY GRADE as of January (and the corresponding year). These are not data files but report printouts. They are similar to EEO-4 forms. These contain by agency
 - i. SG (salary grade?)
 - ii. Total fill
 - iii. Total Male
 - iv. Number of race code
 - 1. 00 (newer versions identify these codes as the corresponding abbreviations per codes listed in Exhibit B item b).
 - 2. 01
 - 3. 02
 - 4. 03
 - 5. 04
 - 6. Unknown
 - v. Total female
 - vi. Number of race code
 - 1. 00
 - 2. 01
 - 3. 02
 - 4. 03
 - 5. 04
 - 6. Unknown
- vii. Not included
 - 1. Unidentified as to sex (Counts are of employees whose records indicate ethnicity but not gender)
 - 2. Unidentified as to sex and ethnicity (Counts are of employees whose records lack both ethnicity and gender)

I have imported all of these files into Microsoft Access to facilitate data analysis, with the exception of the items in Exhibit (disk) C.

Using the file entitled 1214.txt from exhibit A, I used basic database statistical functions to perform the following analyses:

Qry_1214_passfail.xls

For the table entitled 1214:

1. I stratified population by ethnic code with counts of each
2. Break down by pass/fail <70
3. Avoid duplication of records

Also using the table entitled 1214 from the file entitled 1214.txt I stratified each ethnic code by scores of

1. 90 or above
2. 80-90
3. 70-80
4. below

Using the file entitled Allbatteryrecords.txt from exhibit A, I used basic database statistical functions to perform the following analyses:

Qry_stratofallbattery.xls

1. I stratified population by ethnic code with counts of each
2. Break down by pass/fail <70
3. Avoid duplication of records
4. Calculated the pass rate by class
5. Calculated the percentage of each classes pass rate to the white pass rate
6. Calculated the percent of each class scoring under 80%.

Also using the table imported from the text file entitled Allbatteryrecords.txt I stratified each ethnic code by scores of

1. 90 or above
2. 80-90
3. 70-80
4. below

Using the file entitled DropDownOnly.txt from exhibit A, I used basic database statistical functions to perform the following analyses:

Qry_dropdown_passfail.xls

1. I stratified population by ethnic code with counts of each
2. Break down by pass/fail <70
3. Avoid duplication of records

Also using the table imported from the text file entitled DropDownOnly.txt I stratified each ethnic code by scores of

1. 90 or above
2. 80-90
3. 70-80
4. below

Using the file entitled OCheldOnBatteryDate.txt from exhibit A, I used basic database statistical functions to perform the following analyses:

Qry_ocheld_passfail.xls

1. I stratified population by ethnic code with counts of each
2. Break down by pass/fail <70
3. Avoid duplication of records

Qry_emphist_count.xls

From Exhibit 2 (b) I linked the table from the employee ethnicity file (emplid_ethnic.txt) (c) and the table created from the file entitled prombat_emphist.txt (d) to stratify promotions of whites and blacks (where promotions are increases in grade). Using a visual basic program I compared the grades of employees over time, to identify changes in their job classes between records and correlate them.

Note: I observed a small number of abnormal transactions of promotions followed by demotions, and were not able to exclude these from the analysis. I then counted how many promotions took place by ethnic group, and what percentage of the total were in each racial class.

Qry_emphist_count_by_year_by_grade.xls

Basically breaking the down the above detail from Exhibit 2 (b) I linked the table from the employee ethnicity file (emplid_ethnic.txt) (c) and the table created from the file entitled prombat_emphist.txt (d) to stratify promotions of whites and blacks (where promotions are increases in grade) by year, by grade and racial class.

Qry_emphist_count_by_year.xls

Basically breaking down the previous detail from Exhibit 2 (b) I linked the table from the employee ethnicity file (emplid_ethnic.txt) (c) and the table created from the file entitled prombat_emphist.txt (d) to stratify promotions of ethnic groups (where promotions are increases in grade) by effective year, grade and racial class.

Qry_prombatstrat.xls

From Exhibit 2 (b) I linked the table from the promotional battery exam history (prombat_examhist.txt) (e) to the ethnicity in the employee ethnicity file (emplid_ethnic.txt) (c).

I flagged as promoted any employees who had one or more of the following statuses: AP, AX or CA as having been promoted. I then used database statistical functions to sum the count of promotions by ethnic group so as to also derive the percentage of promotions that occurred by racial class.

The status codes used on the previous page were defined in the file provided entitled documentation.rtf as follows:

tbl_qs_1

QS_1	Desc	Prom
AP	Applicant Approved	Yes
AX	Applicant Approved, Review	Yes
CA	Applicant Conditionally Approved	Yes
DQ	Applicant Disqualified	No
NA	Not Applicable	No
NR	Applicant Not Reviewed	No

Qry_prombatstrat_by_year.xls and qry_prombat_by_year_crosstab

Using the same data that was used to generate the Qry_prombatstrat, I summarized the promotions by the year of the effective date (effdt) and then by racial class. I also added a column to calculate the percentage of each class' passing rate to the white passing rate.

Tbl_promhist_crosstab.xls (e)

Using the same data that was used to generate the Qry_prombatstrat, I summarized the promotions by the grade and then by racial class.

Qry_prombat_jobcodes_strat.xls

Using (f) prombat_job_codes.txt I linked to emplid_ethnic.txt(c) to determine ethnicity and identify how many promotions there were by racial group and percentage of total promotions.

Qry_prombat_jobcodes_crosstab.xls (f)

Using (f) prombat_job_codes.txt I linked to emplid_ethnic.txt(c) to determine ethnicity and identify how many promotions there were by grade and by racial group and percentage of total promotions.

Qry_promotions_by_year_crosstab.xls

Using (f) prombat_job_codes.txt I linked to emplid_ethnic.txt(c) to determine ethnicity and identify how many promotions there were by the year of the effective date and by racial group and percentage of total promotions.

Qry_all_battery_records_with_ethnic_code

Using allbatteryrecords.txt as is to show each exam and the racial class of each participant. A hard copy is not attached as this is simply a copy of data originally provided by the state which would have been thousands of pages.

Qry_all_bat_year_crosstab

Using allbatteryrecords.txt to summarize by series date year and the racial class of each participant.

Emp_popdist.xls

Using the emplid_ethnic.txt (c) I derived the count of employees by employee ethnicity.

Summary of exam 02001 on 10-26-96.xls and Summary of exam 02002 on 10-26-96.xls

Using a paper copy provided by the NYS Department of Civil Service entitled *Eligible List Scores and Distribution by Race and Sex*, I calculated for each score level what the actual number of persons scored at each level, and then determined the percentage of the people receiving the score for each racial class, and then the percentage of each racial class at each score level. Finally I determined what percent of each racial class scored over 80%.

If you have any questions regarding the foregoing, please contact me.

Sincerely,

Michael Haines, CPA Partner

CAREER EXPERIENCE

Accounting Link Technologies, LLC, Newburgh, NY 2000–present

Managing Consultant

Consultations with clients to align technology with business strategy and to develop and execute technology plans.

Managed and assisted in the implementation of various software applications in various markets. Responsible for all customer development and profitability. Supervision of multi-discipline staff.

Training and motivation for all staff members.

Basic Support, Inc., Middletown, NY 1995-2000

Consultant

Created consulting firm to assist businesses in using technology for a competitive advantage. Provided software design, implementation and development for small and medium size companies as well as multi-national enterprises. User training and support.

Performed data conversions and data integrations between various applications.

Wehran Envirotech, Middletown, NY 1991–1995

Financial Systems Coordinator

Upgraded the extensive database systems, provided training and support to all corporate users, designed custom reports for management analysis and control. Alignment of financial systems with management requirements.

Neil Della Torre and Company, CPAs, Ridgewood, NJ 1989–1991

Senior Accountant

Design and implementation of financial systems and reporting tools. Financial statement audits, reviews and compilations, corporate and individual tax preparation. Design of cost accounting systems.

Clients were primarily in manufacturing and distribution sectors.

Robert J. Ricca and Company, CPAs, Maybrook, NJ 1987–1988

Accountant

Financial statement preparation, corporate and individual tax preparation. Automation of accounting functions for firm and clients.

Farmland Dairies and related companies, Wallington, NJ 1983–1987

Various positions in sales and distribution of wholesale dairy products

Additional work experience in distribution, warehousing and manufacturing from 1977-1983
